

Elevation Lab

SMX Elevation Lab (ELAB) is a premier turn-key facility nestled in the vibrant downtown of Fayetteville, NC, offering unparalleled access to military and civilian personnel alike, being just 17 minutes from Fort Liberty's All-American ACP and a short 15-mile journey from Pope Army Airfield. This strategic positioning not only enhances accessibility but also fosters a strong connection with the surrounding military community.

Crafted to exceed the stringent demands of modern operational needs, ELAB is fully compliant with the latest building codes and the rigorous ICD 705 security standards, providing a secure foundation for a wide array of operations. The facility is equipped with round-the-clock access control and IT support, ensuring that workflow remains seamless and support is always within reach. The presence of a dedicated Facility Security Officer (FSO) team and comprehensive management support underscores ELAB's commitment to maintaining a high security and operational standard.

Security at ELAB is uncompromising. Key features include compartmented room sponsorship, on-site FSO support, and a robust partnership with local law enforcement to guarantee swift emergency responses. The facility is fortified with STC 50 rated doors outfitted with LKM10K locks, advanced DMP alarm panel keypads, secure badge/card readers, and strategically placed motion sensors - creating a bastion of safety for all occupants.

ELAB shines in its provision of technical support and assistance, boasting a dedicated IT team equipped with a dual ISP failover system that includes a formidable 10 GB fiber primary connection and a reliable 500meg cable secondary connection. The thoughtful design featuring raised floors accommodates a comprehensive communications network, reflecting the facility's forward-thinking infrastructure planning.

The facility offers specialized spaces for sensitive compartmented information, with two 735 square foot areas awaiting reaccreditation, tailored to meet the needs of high-security operations. ELAB also promotes a collaborative and comfortable work environment through its common areas, including a versatile conference space and a welcoming break room, both featuring kitchenettes, enhancing the overall experience for those who work within its walls.

Key Capabilities

Location

- Conveniently located in downtown Fayetteville, NC
- 17-minute drive from the All-American ACP of Ft. Liberty
- 15-mile driving distance from Pope Army Airfield

Turn-key facility

- Built to current building codes and security requirements per ICD 705 standards
