

# Operations Center

SMX Elevation Lab (ELAB) is ready support whatever your classified mission needs may require in our Fayetteville facility with our Operations Center as a Service (OCaaS). Nestled in the downtown of Fayetteville, NC, we offer unparalleled access for military and civilian personnel alike, situated ten miles from Fort Bragg's All-American ACP or a short 15-mile drive from Pope Army Airfield. This strategic positioning not only enhances accessibility but also fosters a strong connection with the surrounding military community.

The ELAB offers specialized spaces for activities up to the TS/SCI level with two 735 square foot spaces awaiting reaccreditation, tailored to meet the needs of high-security operations. Crafted to exceed the stringent demands of modern operational needs, ELAB is fully compliant with the rigorous ICD 705 security standards, providing a secure foundation for a wide array of operations. The facility is equipped with 24/7 access control and IT support, ensuring workflow remains smooth and support is always within reach. The presence of a dedicated, on-site Facility Security Officer (FSO) team and comprehensive management support underscores ELAB's commitment to maintaining a high security and operational standard.

ELAB shines in its provision of technical support and assistance, with a dual ISP failover system that includes a primary 10 GB fiber connection and a reliable 500 MB cable secondary connection and a dedicated IT team. The thoughtful design featuring raised floors accommodates a comprehensive communications networks, reflecting the facility's forward-thinking infrastructure planning to support your operational requirements.

ELAB also promotes a collaborative and comfortable work environment through its common areas, including a versatile conference space and a welcoming break room, both featuring kitchenettes, enhancing the overall experience for those who work within its walls.

Security at ELAB is uncompromising. Key features include compartmented room sponsorship to ensure operational security and a robust partnership with local law enforcement to guarantee swift emergency responses. The facility is fortified with STC 50 rated doors outfitted with LKM10K locks, advanced DMP alarm panel keypads, secure badge/card readers, and strategically placed motion sensors - creating a bastion of safety for all occupants and their respective missions.

## Key Capabilities

### Location

- Conveniently located in downtown Fayetteville, NC
