

Deneir Analytics & Visualization Ecosystem (DAVE) Contract Vehicle

Outside Analytics Awarded \$215M Deneir Analytics & Visualization Ecosystem IDIQ Contract & Task Order 1

Outside Analytics (OA), acquired by SMX in 2023, secured a prestigious SBIR Phase III IDIQ Sole-Source Contract from the General Services Administration (GSA), valued at up to \$215 million over five years, with three optional years—paving the way for transformative innovation. This partnership empowers the Department of Defense (DoD) and Intelligence Community with cutting-edge data processing, analytics, and visualization capabilities. Under the first Task Order, Outside Analytics will leverage this contract to elevate its platform development for the United States Space Force's Space Systems Command, emphasizing rapid deployment to the OPIR TAP Lab in Boulder, CO. Together, we're driving enhanced decision-making and solving mission-critical challenges across federal communities showcasing SMX's unwavering commitment to advancing national security and technological excellence.

Outside Analytics' Capabilities Ecosystem

Real-time Data Ingest & Analytics

Integration, Fusion, & Analysis

Intuitive Data Visualization

Decision Ready Results to Operators

Meet DAVE; your versatile contracting solution for seamless remote sensing mission operations in both unclassified and classified environments.

Unparalleled Flexibility: Whether you need end-to-end support from calibration to mission decision workflows or select components to enhance your operations - we adapt to meet your specific needs, ensuring efficiency and precision at every step.

Seamlessly Modern: Experience the power of software designed from the ground up for the modern era. Our platform enables effortless integration with existing technologies and smooth incorporation of third-party solutions, making it a perfect fit for your evolving ecosystem. With real-time processing capabilities, it delivers performance that shines when milliseconds matter.

Mission-Ready Anywhere: Deployable to any cloud or on-premise infrastructure, the software is rigorously developed and tested to handle data processing on both unclassified and classified networks—meeting the critical demands of the DoD and Intelligence Community.

End-to-End Integration: From build and test to deployment, we deliver a comprehensive suite of integration capabilities to support your operational goals.

Contract Title: Deneir Analytics & Visualization Ecosystem (DAVE)

Contract Type: Sole-Source SBIR Phase III

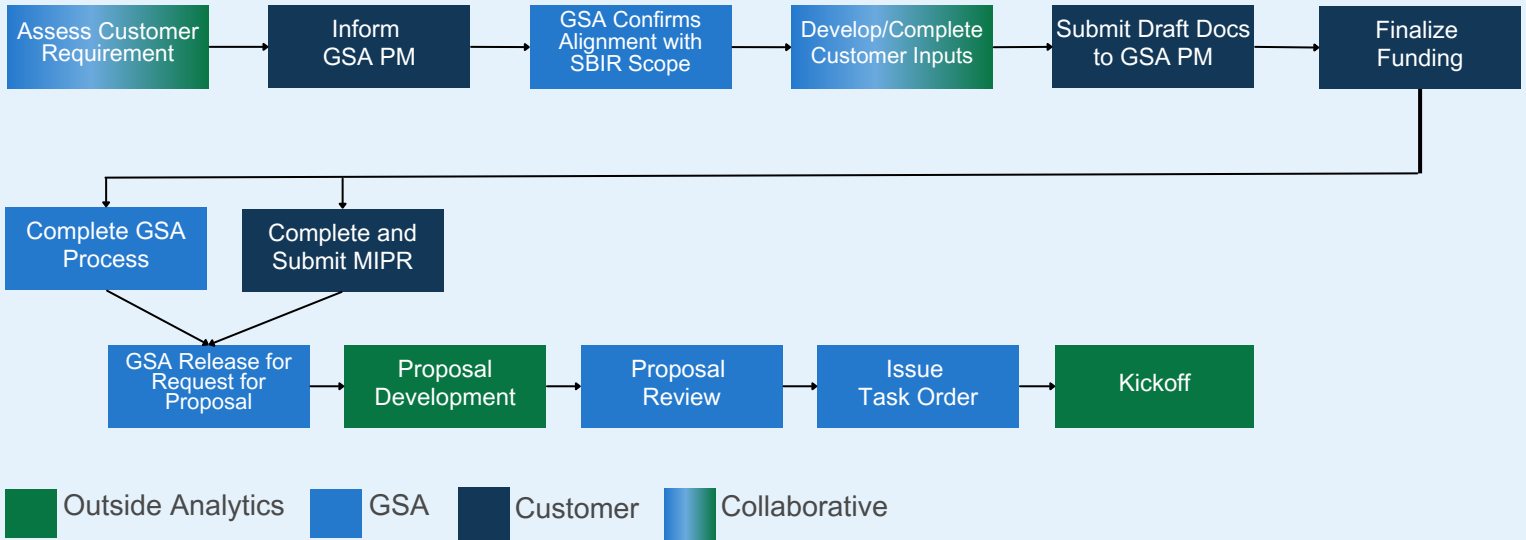

Ceiling: \$215M

Contracting Authority: General Services Administration (GSA)

Agency: Any Department of Defense (DoD) Agency

Distribution Statement A. Approved for public release: distribution is unlimited.
