

# Cloud Framework

## A Full Life-Cycle Approach to Secure Cloud Services

Combining a strong enterprise services history with the agility of an organization well-versed in DevOps methodologies, the SMX Digital Solutions Group can strategize, consult, architect, deploy, secure, and manage complex enterprise solutions of any size ranging from start-ups to global enterprises. We operate under agile and continuous improvement methodologies while delivering business-focused solutions that exceed customer expectations.

### Engage, Transform, Optimize

We engage with our clients where they need it most. Our measured approach leads with client business goals and focuses SMX teams on solutions that provide the highest value outcomes with our teams of highly accredited experts, suite of digital tools, frameworks, and solution libraries anchored to mission outcomes.

**1. Strategize**  
Collaborate with SMX subject matter experts on strategic decisions, maximizing your cloud and technology investments to drive measurable outcomes.

**2. Design & Build**  
Unlock innovation and employ cloud-native technologies that rapidly deliver resilient applications and allow for scale – meeting any level of demand.

**3. Migrate**  
Align migration with business strategy and outcomes to maximize return on investment through a mix of lift and shift and modernization – resulting in long term cloud agility.

**4. Secure & Comply**  
Security and compliance are the foundation of every SMX solution. Our accredited automation delivery platform and services unlock secure innovation and accelerate Authority to Operate (ATO) with FedRAMP®, DoD RMF, FISMA, CMMC, StateRAMP, HIPAA, HITRUST, and PCI.

**5. Optimize & Modernize**  
Replace legacy and mainframe systems by leveraging modernized digital tools and capabilities to accelerate the delivery of cloud native applications and deliver higher returns. Unlock the potential of cloud while balancing performance and spend using SMX FinOps.

**6. Manage**  
Mitigate talent scarcity by leveraging a team with 15+ years of cloud experience that can build and maintain sustainable cloud operations without vendor lock-in.

### Services that Maximize Mission Outcomes
